THE PROGRESS OF THE RE-VIVAL.

Large Congregations Interest. and Good

Interest.

The general revival services, which had been prepared for, commenced in all the Protestant Churches, on Sunday last (with the exception of the Southern Preshyterian Church.)

As a rule large congregations attended and a deep solemnity characterized the meetings. The preaching has been solemn, direct and of searching personal character, and has been listened to with profound attention.

We summarize the visible results up to the time our paper went to press on Friday evening: Ascension Church—The regular lenton services have been held by the rector, Rev. A. B. Chinn, Large congregations have attended each service afternoon and evening.

Christian Church—Rev. C. R.

each service afternoon and evening.
Christian Church—Rev. C. R. Hudson, the pastor. has preached each evening at 7:30 o'clock, and has been assisted by Prof. F. H. Cappa and wife (sweet singers of Israel). Fine congregations and deed soleunity.
First Baptist Church—Rev. Preston Blake, D. D., of Lexington, has been assisting Past r M. B. Adams. Services have been held each afternoon and evening. Good congregations have attended the afternoon services, but in the evening the seating capacity of the large audience room has been taxed to accommodate the audiences in attendance. Great solemnity has characterized the metirgs.

emnity has characterized the metit gs.

Methodist Church—Rev. J. O. A. Vaught, the pastor, has been doing the preaching. Unusually good audiences have been present and a fine feeling has been manifested.

First Presbyterian Church—
Rev. Donald McDonald, D. D., has been assisting Rev. J. Mc-Clusky Blayney, D. D., the pastor. Fine audiences have greeted the ministers, and much good has been done.

Ten thousand demons gnawing away at one's vitals couldn't be much worse than the tortures of itching piles. Yet there's a cure. Dona's Ointment never fails.

WON BIG VICTORY.

Messrs. E. H. Taylor. Jr. & Sons Win After Hard Fight.

On Friday of last week Messrs.
E. H. Taylor, Jr. & Sons won
their suit, in the Court of Appeals, against Mr. Marion E. Taylor (and the late firm of Wright
& Taylor), of Louisville.
For pany years this

peals, against Mr. Marion E. Taylor (and the late firm of Wright & Taylor), of Lonisville.

For many years this concern has been selling whisky under the brand of '00d Taylor' and representing that it was a thead dand they were also representing themselves as distillers, when in fact they never owned a distillery).

Of course they were thus able to sell their goods for less money than the real 'Old Taylor' could be sold for.

Messrs. E. H. Taylor, Jr. & Sons sued out an injunction to restrain these parties from representing their goods as genuine ''Old Taylor' and for damages for an infringement of their trademark, which (Taylor & Sons) had labored so successfully to put on the market and which was so valuable.

They also prayed the court for an accounting of profits realized by the infringement.

In the lower court Messrs. Taylor & Sons were defeated, but, upon appeal to the Court of Appeals, Chief Justice Hobson handed down the decision which gives them the relief asked, and directs the proper steps for them to take in order to the proper accounting for damages and profits. This is a big victory for straight dealing and the protection of trade-marks, which has been long, needed by Kentucky distillers. The total amount involved is in the region of \$300,000.

Rev. Donals has been assisting Rev. Clusky Blayney, D. D., the pastor. Fine audiences have greeted the ministers, and much good has been done, the fact that Rev. Owing to the pastor of the Southern Preshyterian Church, has just closed a protracted meeting in Missouri, he has been come pelled to take a rest, and has not held any services in his church.

FRANKFORT, MARCH 225, 1905

TO OUR PATRONS.

Some weeks ago we sent notices to those of our patrons, who were in arrears for the Roundabout, as to the amount, and requesting settlement. We are glad to say that quite a large number of them have responded.

To those who are still in arrears we wish to give notice that we shall be compelled to stop their papers in the near future if they do not settle. Kindly bear this in mind and square up.

AMENDE HONORABLE.

In our notice of the banquet given by the Baraca Class of the First Baptist Church, on Thursday night of last week, we unintentionally omitted to mention the fact that the young ladies of the Church served the banquet in elegant style, not having a jar or a particle of confusion from start to finish, and they moved through it all with the grace characteristic of Frankfort girls, and a prettier and sweeter looking bevy of girls can not be found in this section of country.

To these ladies and to those others who planned and prepared the banquet is due the splendid success of the whole affair.

We must not forget, also, to state that the Frankfort Orchestra furnished delightful music throughout the evening.

HE above picture of the man and fish is the trade-mark of Scott's Emulsion, and is the synonym for strength and purity. It is sold in almost all the civilized countries of the globe.

If the cod fish became extinct

it would be a world-wide calamity, because the oil that comes ity, because the oil that comes from its liver surpasses all other fats in nourishing and life-giving properties. Thirty years ago the proprietors of Scott's Emulsion found a way of preparing cod liver oil so that everyone can take it and get the full value of the oil without the objectionable taste. Scott's Emulsion is the best thing in the world for weak, backward children, thin, delicate people, and all conditions of wasting and lost strength.

U. S. COURT ADJOURNS.

The U. S. Court, which has been in session here for two weeks, closed up its business on Thursday evening and adjourned.

The last case tried was that of Rogers v. C. & O. Ry. Co. and Pullman Car Co., in which Mrs. Rogers claimed damages for being forced to change care while the train was running at a high rate of speed, whereby she was thrown against the seats, etc., her back being seriously if not permanently injured. She won a verdict of \$3,000.

DR. WILLIAMS UPSET.

While en route from the country. on Saturday night, Dr. U. V. Williams had his buggy upset and was considerably bruised about the head and side. The Doctor remarked to his Sunday-school, on Sunday morning, that he "had not been fighting, even if his head and eyes were bunged up."

"THE WIZARD OF OZ."

Hamlin & Mitchell's Great Spectacular Extravaganza Comes to Capital Theatre Wednesday Night, March 29, For One Per-

The Capital Theatre is evidently in for a record-breaking engagement with the "Wizard of Oz," which is to be seen at that house next Wednesday, March 29. The enormous business that this attraction is doing this season is really phenomenal and probably no other performance could quite succeed in drawing so universally well. "The Wizard" possesses so many elements of success that it is little to be wondered at that it has become so attractive and so popular with American theatregoers. Music, comedy and extravaganza are so adroitly intermixed that the result is an entertainment that is pleading to all classes. Frank Raum"s book of fairy stories lends itself admirably to the purposes of extravaganza, and in "The Wizard" every advantage has been taken of the opportunities to provide a performance that can be scarcely described otherwise than as extraordinary. There are several scenic effects in "The Wizard" that would make it "talked about" if there was nothing more. One of these is the cyclone which comes at the very beginning of the play. And, by the way, it behooves all to be in the theatre early, as the performance begins at EIGHT O'CLOCK AND THE CYCLONE.

"POSTOFFICE."

There is beguilement in the story of Rhoda's first party to the public in "The COLLOK AND THE CYCLONE COMES WITHIN FIVE MIN. UTES AFTER THE RISE OF THE CURTAIN. The evelone is most realistically managed by the aid of electricity, and is one of the second the state of the most startling scenes ever put on the stage. Next to this comes the seens showing the field of poppies, the flowers being represented by human figures. A snowstorn comes up, the flowers as a strange new game called "Post-office for Davie Williams," "she colled in a shrill, high voice that sounded frightened.

"All the other little girls laughed. Davie Williams grew very red in the face, but he went out for his letter, and closed the door carefully behind him.

"I wondered why he stayed so long, and what they could possibly be doing behind the door. It was very vexiting. A CONSIDERATE LITTLE

A little miss of four years, from Louisville, visited her grand-mother in this city recently, and while here attended Sunday-school with some of her little friends one Sunday, upon which occasion the subject of the lesson was Nicodemus' Visit by Night to Jesus. Upon returning home her grand-mother asked what she had learned at Sunday-school, when she replied: "All about Niggerdemus, it don't call him Niggerdemus; I say Colored Demus. It's more polite."

KENTUCKY EDUCATIONAL ASSOCIATION

Will Meet at Mammoth Cave, Ky., on June 21, 22, 23, 1905.

The approaching meeting of the Kentucky Educational Association at Mammoth Cave, in June, will doubtless be a record-breaker. The double attraction of seeing the greatest natural curiosity in the world, and at the same time attending the largest and most enthusiastic educational meeting in the history of State educational associations, will draw many who have not heretofore attended.

There will be present large bodies of teachers from all adjoining States, and certainly no Kentucky teacher will allow so excellent an opportunity to pass without making effort to avail himself of its advantages.

DON'T THINK YOURSELF TO

Thousands of people actually think themselves to death every year by allowing their minds to dwell on morbid subjects.

The idea that one has some inciplent disease in one's system, the thought of financial ruin, that one is getting on in life without improving prospects—any of these or a thousand similar thoughts may carry a healthy man, to a premature grave. A melanchely thought that fixes itself upon one's mind needs as much doctoring as physical disease. It needs to be eradicated from the mind or it will have the same result as a neglected disease.

are morbid condition of mind produces a morbid condition of body, and if the disease does hap-pen to be in the system, it receives every encouragement to develop. We need more mental therapy.— From Suggestion, the New Psy-chology Magazine. The morbid condition of mind

thought that fixes itself upon one's mind needs as much doctoring as physical disease. It needs to be eradicated from the mind or it will have the same result as a neglected disease. Every melancholy thought, every morbid notion and every magging worry should be resisted to the utmost, and the patient should be protected by cheefful thoughts of which there is a bountful store in every one's possession. Bright companions are cheaper than drugs and plasters.

THE RECORD OF CONGRESS ON IRRIGATION, FORES-TRY AND LAND LAW REFORM.

What has Congress done this winter in the forestry and irrigation cause? Did it do anything of importance in either, or on the public land question? Nothing in any sense spectacular, but yet several things of very considerable importance, and furthermose it refused to do several very bad things which were strongly urged upon it.

the reused to to several things which were strongly urged upon it.

After a long struggle of years the law was passed consolidating all of the forestry work of the government into one bureau in the Department of Agriculture; this in place of having it split up among some five various branches in different departments. This gives over 60 million acres of Forest Reserve into the care of the Forestry Bureau of the Department of Agriculture with adequate authority to fairly protect the forests, allow for the cutting and sale of ripe timber, and with power to arrest trespassers, etc.

SUPPORTING THE RECLAMATION SERVICE.

Several small bills desired by the Reclamation Service to more fully carry out the irrigation law were considered and readily passed by Congress, such as the bill to allow the proceeds from the sales of the vast amount of partly used supplies, at the end of each season, tog back into the 'reclamation fund,'' instead of into the Treasury, thus keeping the fundintact and operating as an incentive to the engineers to take care of their property and realize the most out of it.

The really great legislation of the session, however, was the repeal of the forest reserve lieu selection law, thus preventing the location in the future of all forest reserve scrip, so-called, i. e., repealing the right of a man or a corporation owning land within a forest reserve to relinquish it to the government and select "in lieu thereof" any other unreserved nomineral public land.

Denuded slopes not worth 50
cents an acre, or bare mountain
sides, acquired under other land
laws at a nominal figure simply
for the purpose of exchange, have
been relinquished and lieu selections made, worth, according to
the highest official and expert authorities, \$50 and even \$100 an
acre. By these transactions the
country has lost in the last few
years tens of millions of dollars.
By the action of Congress this
form of graft is now at an end.

The repeal of this lieu land law
is the first recognition by Congress of the wise recommendations
of the President and his Public
Lands Commission. There are
three other specific reform recommendations of the President and
the Commission and these will be
for Congress to act upon at its
next session.

SQURAE MILE HOMESTEAD BILLS DEFEATED.

BILLS DEFEATED.

Another point, however, wherein Congress followed the recommendations of the Commission was in the refusal of the Senate to enact 640 acre homestead laws for Colorado and South Dakota, although the House did its best to secure this square-mile homestead legislation. In defiance of he strong adverse reports of the Commissioner of the General Land Office, the Secretary of the Interior, the Public Lands Commission, along with the special message from the President to Congress endorsing the Commission, along with the special message from the President to Congress endorsing the Commission, along with the special message from the President to Congress endorsing the Commission, along with the special message from the President to Congress endorsing the Commission, along with the special message from the President to Congress endorsing the Commission, along with the special message from the President to Congress endorsing the Commission and the Commission along with the special message from the President to Congress endorsing the Commission, along with the special message from the President to Congress endorsing the Commission, along with the president and the president with the president and the president a

sion's recommendation against these bills, and of the strong pro-test of Chairman Lacey of the House Public Lands Committee, the House of Representatives passed these measures by a vote of nearly three to one.

Y FARMING RECLAMA-TION AND RANGE CON-TROL.

TION AND RANGE CONTROL.

This proposed legislation was considered especially unwise just at this time when the Department of Agriculture is every year bringing into the possibilities of profitable cultivation millions of acres of the semi-arid lands, where it was proposed to apply these laws, through the introduction from abroad of drouth resistant plants and desert species of grain and fodder, and by new and improved methods for farming dry lands. Moreover, the Commission has worked out a plan of range control and grazing permits which gives the real settler all asked for under the 640 acre measures and yet avoids the danger of the absorption of the land into large cattle holdings, but allows ample time and scope for the "dry farming" reclamation work of the Department of Argiculture.

"All in all," remarked a prominent advocate of both irrigation and forestry, a man in high official life, "very much indeed has been accomplished in this report of the President's Commission, outlining a comprehensive policy for the treatment of the entire irrigation, forestry and public land questions and we can all stand on this report and I believe get its provisions through the next Congress. The time is ripe, the country is awake and the men are here."

FIRST LONG STEP IN LAND LAW REFORM.

This is a great step forward in land law reform and does away with one of the most notorious and s'andalous forms of fraud and graft under the federal land laws. Under this law enormous losses have been put upon the government, the right to select these lieu lands having been transferable and resulting in the relinquishment during the past few years of several million acres of comparatively worthless railroad grant and other lands in cluded within forest reserves, and the selection in their place of equal areas of the finest timber lands in the northwest.

ARE YOU ENGAGED?

Engaged people should remember, that, after marriage, many quarrels can be avoided, by keeping their digestions in good condition with Electric Bitters. S. A. Brown, of Bennettsville, S. C., says: 'For years, my wife suffered intensely from dyspepsia, complicated with a torpid liver, until she lost her strength and vigor, and became a mere wreck of her former self. Then she tried Electric Bitters, which helped her at once, and finally made her entirely well. She is now strong and healthy. All druggists sell and guarantee them, at 50c a bottle.
